

PRESS RELEASE

EZ-Assure Establishes UK Office

Santa Barbara, California – March 19, 2008. EZ-Assure, an innovator and leading provider of web-based complete security solutions, has opened a UK office, led by Paul Lowman.

“EZ-Assure has established this new office to better serve our growing UK and European customer base” says Brent Van Loggerenberg, VP of Sales and Channel Development. “We are delighted to have it led by Paul Lowman who has an excellent track record in helping customers solve their security problems.”

About EZ-Assure

EZ-Assure is an innovator and leading provider of Web-based complete security solutions. Key products include Park-Assure, which provides electronic access control for parking equipment without the need for on-site power, Access-Assure which produces electronic access control without wiring and Guard-Assure which automatically verifies that security guards are checking what they should. EZ-Assure products are installed among customers in the United States, Europe and Asia. For more information, visit www.ez-assure.com.
