

PRESS RELEASE

EZ-Assure partners with SKIDATA

Santa Barbara, California – April 8, 2008. EZ-Assure, an innovator and leading provider of Web-based complete security solutions, announced today that it has signed a long term agreement with SKIDATA AG, the world's preeminent parking services provider, to distribute Park-Assure in Europe, Australia and New Zealand.

"Our Park-Assure product will provide operators of SKIDATA's off-street pay parking machines the means to reconcile the physical count of cash removed from a machine with the machine's electronic count and to control who has access to the machine," says Euan Slidders, President of EZ-Assure. "We are pleased to be partnered with a leader of the stature of SKIDATA in pursuing this important market for EZ-Assure."

About EZ-Assure

EZ-Assure is an innovator and marketer of Web-based complete security solutions. Key products include Park-Assure, Access-Assure, which provides electronic access control without wiring and Guard-Assure, which automatically verifies that security guards check what they should. EZ-Assure solutions are installed among customers in the United States, Europe and Asia. For more information, visit www.ez-assure.com.
