

SKIDATA Develops Exclusive Partnership with EZ-Assure

SKIDATA announces a longterm exclusive agreement with EZ-Assure, an innovator and leading provider of Web-based security management solutions, allowing the Web Key System from EZ Assure to now be sold in the North American market. Benefits of installing the Web Key in your client's paystations, parking columns, and barrier gates include:

Security

- Secure, controlled access to designated components (access security panels of autopay stations, cashboxes, gate columns, etc.)
- Enhanced protection against theft and vandalism
- Full protection against key and lock duplication

Efficiency

- Easy assignment and administration of user rights
- Time-based electronic permission management (including suspension/blocking)
- Administrative access from any Internet terminal anywhere, anytime

Transparency

- Accurate transaction monitoring and reporting (access transactions, user groups, permissions)
- Cash administration

“As a result of our newly signed agreement with SKIDATA AG’s North American subsidiary, SKIDATA, Inc., our Park-Assure product will now provide parking operators of SKIDATA’s off-street Automatic Payment machines in the US, Canada, and Mexico the means to reconcile the physical count of cash removed from a machine with the machine’s electronic count and also control and monitor who has access to their machines at all times,” says Brent Van Loggerenberg, VP Sales and Channel Development for EZ-Assure.

Tom Rollo, President & CEO of SKIDATA, Inc., stated that “We are pleased to be able to offer this high value solution to our customers here in North America”.

About SKIDATA

SKIDATA, Inc., established in January of 2000, is located in Hillsborough, NJ and is a wholly owned subsidiary of SKIDATA AG. SKIDATA AG is an international market leader in access and ticketing systems for parking facilities, airports, shopping centers, ski lifts, sports/event stadiums, leisure centers, and amusement parks.

SKIDATA's client portfolio includes some top names in every sector and key clients in vehicular access. Currently over 3,500 SKIDATA applications are being operated successfully in over 30 countries worldwide. SKIDATA is a Kudelski Group Company (www.nagra.com), a world leader in digital security technology. Kudelski SA is traded on the Swiss Stock Exchange (SWX “KUD”).
